

Your Complete Integration Solution: Connect, Simplify, and Optimize

VizaLogix is built to work seamlessly with your existing systems. With Dealer Connect our solutions integrate effortlessly with DMS, ERP, accounting software, and telematics platforms to provide a unified, efficient workflow for your business.

One Platform. Endless Possibilities

- **DMS Systems:**
Sync effortlessly with Dealer Management Systems to centralize customer, parts, and service data.
- **ERP Solutions:**
Integrate with leading ERP platforms for inventory, finance, and supply chain management.
- **Telematics Systems:**
Connect with AEMP-compliant and 3rd-party telematics to leverage equipment data for predictive maintenance and fleet health monitoring.
- **Accounting Software:**
Ensure smooth financial operations with compatibility for tools like QuickBooks, Sage, and other accounting platforms.

Powerful Integrations for a Better Workflow

Real-Time Data Syncing

Automatically update records across all integrated systems for accurate, up-to-date information.

Predictive Insights

Use telematics and ERP data to identify sales and service opportunities before they arise.

Automated Workflows

Eliminate manual processes with intelligent automation between systems.

Configurable Dashboard

View key metrics from DMS, ERP, and telematics platforms in one centralized interface.

Scalable Solutions

Built to grow with your business, VizaLogix adapts to new tools and platforms seamlessly.
